

Update on MIS Colorectal Surgery - Standards and Perspectives

Clinical Practice Workshop

November, 23rd to 24th, 2014

Fleming's Deluxe Hotel Vienna/Austria

PROGRAM

WELCOME

Dear Colleagues,

Minimally invasive colorectal surgery is an evolving field. What used to be standard yesterday may be superseded by new developments tomorrow. We are pleased to partner up with AFS MEDICAL company through their AFS Academy in an effort to bring to you a blend of state-of-the-art presentations, live operations and discussions.

Prof. Herbst

Prof. Klaus

In this international symposium we will cover both benign and malignant pathologies with internationally renowned surgeons sharing their expertise in standard laparoscopy, reduced port procedures and single incision surgeries. Operations will be transmitted from three theatres in our two hospitals. You are invited to play an active part in order to maximise benefits for your own clinical practice.

We extend a very warm welcome to you and are confident that you will have an interesting and rewarding stay in Vienna.

Univ. Prof. Dr. Friedrich Herbst
Head of Surgical Department
St. John of God Hospital Vienna

Univ. Prof. Dr. Mag. Alexander Klaus
Head of Surgical Department
Hospital of the Sisters of Charity Vienna /
Vinzenz Group
